Rockville. MD 20852

Dear Commissioner,

I urge the FDA to, at the very least, to insist on mandatory labeling of all genetically engineered foods and food ingredients. The public has the right to make an informed decision concerning the foods they and their families consume.

I, and many others, would like to see a moratorium on all GE foods until long-term studies, not industry reports, prove them healthy for humans and the environment. In this case, however, I fear industry's voice will be heard over the public's

Please protect our right to make an informed choice when it comes to the foods we purchase.

Thank-you,

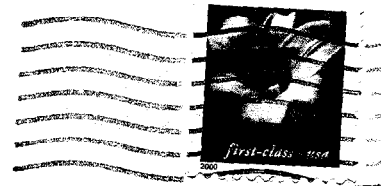

Sandy Couto
